REVIEWERS GUIDELINES

1. The "Tanzania Journal of Science" (TJS) is interdisciplinary Journal devoted to the publication of original research papers and review articles in any branch of science. The Journal will only accept publication of those manuscripts winning the most favourable recommendations from the referees. Your recommendations on the scale below will be of great help. The name of the referee will be treated confidentially.
2. Major points to be considered in your review are:
 - (a) The work must be original and represent a significant contribution.
 - (b) The experimental design and methodologies used must be satisfactory.
 - (c) Conclusions must be based upon an adequate number of tests with appropriate statistical evaluation. (if applicable)
 - (d) Manuscript must be clearly and concisely written with correct grammar and word usage.
 - (e) The organization must be economical. The presentation of data should be adequate and the quality of figures should be high. Make specific suggestions for combining, condensing or deleting tables and figures.
 - (f) The appropriate and pertinent references should be cited.
3. Negative or confirmatory results are not acceptable for publication unless there is some compelling scientific significance to such findings.
4. Referee's other comments on the Manuscript (please write any other comments).

EVALUATION

1. Acceptable after the minor changes suggested.
2. Acceptable after revisions and re-evaluation.
3. Revise the manuscript to Short Communication.
4. Rejected.
